Data Sources: First Trust Portfolios, Guggenheim Investments, Advisors Asset Management

Cumulative returns of the unit investment trust strategy are based on distributions received in cash and recognized on the ex-dividend date during the life of the unit investment trust. Historical strategy performance is derived by utilizing the average daily performance of the outstanding series of a UIT strategy. Returns are calculated excluding the Transactional Sales Charges for each unit investment trust series but does reflect the Creation & Development Fee and trust operating expenses as incurred for each unit investment trust series included in the calculation. The returns do not adjust for taxes. If adjusted or taxes, the effects of taxation would reduce the performance depicted.

Past performance is no indicator of future results. Investment return and principal value will fluctuate with changes in market conditions. We make no assurance that any investment product based on an index will accurately track index performance or provide positive investment returns. An investment in units of a unit investment trust and continuing the investment in units of subsequent series of unit investment trust strategy, when redeemed may be worth more or less than their original investment.

Any written analysis appearing herein are statements of opinion and not statements of fact. The data and information contained herein has been obtained from sources believed to be reliable. However, we do not warrant the accuracy or completeness of any information, data or analysis contained herein and we provide no assurance that the content of this material is, in fact, accurate.
